Discovery Topic: The Human Body

Year 3

On this page is a list of home learning activities. This term we would like you to complete four of the activities below (at least one of which must be writing based and these are highlighted in red). These need to be returned to school by the end of term, although they can come in before as and when they are completed. We look forward to seeing what you choose and create!

Write a fact file about extraordinary people around the world, such as the tallest man.

Create a true/false quiz on the human body.

No more than 10 questions!
Please provide answers

You wake up with a superhuman power. How would you use it to save the world?
Write an adventure story.

Does the person with the longest arm in your family throw the furthest? Investigate and write a conclusion.

Write a non-chronological report about bones. You must have 3 sub-headings. They could be:

What are bones made of?

Create a replica of a skeleton. Be as creative as you like!

Imagine you have the power to create a new human body. What would it look like? Write a description about it and explain why it is better than the original human body

Write a biography about Alexander Fleming. How did his discovery help us?

Create a moveable joint out of cardboard or paper to show how the joint works.

Create an acrostic factual poem using the title: Human Body
